# INTERACTIVE ENGLISH LEARNING EXPERIENCE

The Muize English course is designed to help develop the students' language and communication skills, and equip them with both the vocabulary and understanding to successfully navigate the English world. The core of the course is based on helping you to communicate effectively in everyday situations, and to advance your overall level of English. It focuses on developing listening, speaking, reading and writing skills; extending vocabulary and applying grammar.

The morning classes are based around role-play activities that simulate the real world situations the student will encounter later on in the day.

This interactive classroom allows the student to engage with some of the best sights and attractions in and around Cape Town. This hands-on approach to learning keeps it fun and exciting with ample opportunities to practice and refine your English.

Throughout the 2 week course the lessons in the classroom will mirror the events of the day and provide ample opportunity to practice the various skills. The day closes off with a recap/overview session where any issues or obstacles are discussed and resolved.

## Classes held at The Muize Mansion

Our English Language School has a wealth of experience working with international clients from a variety of cultures and nationalities. Your English lessons take place in what can justly be described as an aesthetically harmonious learning environment. This is the Muize Mansion – Built in the 1930's, it retains most of its original features – a splendid mix of art-deco, art nouveau and local architectural influences. So you will be spending part of every day in a place that is both grand and homely, stimulating and relaxing. A good place for working on language.

The whole place has been fully refurbished and stylishly finished with luxury and comfort in mind. We also offer high speed internet (20mbps line) free to all guests.
